

5 confirmed from paramedic sources that Good Lagoon has an contract with a private ambulance service called Med-transport solutions. This company does not appear in any public emergency services directory has no physical address aside from a PO box, and operates ambulances that have standard emergency markings but unusual equipment setups. A paramedic involved from my time covering city council meetings agreed to investigate [REDACTED]

contacted the regional EMS coordination center and found that Medtransport solutions vehicles are not included in the standard dispatch system. They do not respond to 911 calls.
